

std::false_type

```
classDiagram
    class std_false_type["std::false_type"]
    class std_math_concepts_has_subvector_type["std::math::concepts::has_subvector_type<T, class>"]
    std_math_concepts_has_subvector_type --|> std_false_type
```

The diagram consists of two rectangular boxes. The top box is white with a black border and is divided into three horizontal sections. The top section contains the text 'std::false_type', while the two bottom sections are empty. The bottom box is gray with a black border and is also divided into three horizontal sections. The top section contains the text 'std::math::concepts::has_subvector_type' followed by '< T, class >' on the next line. The two bottom sections are empty. A blue arrow with a hollow triangular head points from the top edge of the gray box to the bottom edge of the white box.
