

true_type

The diagram illustrates an inheritance relationship. At the bottom is a gray rectangular box representing the base class, divided into three horizontal sections. The top section contains the text 'std::math::detail::is_complex< complex< T >>'. Above this box is a white rectangular box representing the derived class, also divided into three horizontal sections. The top section of the white box contains the text 'true_type'. A blue arrow points from the top edge of the gray box to the bottom edge of the white box, indicating that 'true_type' inherits from 'std::math::detail::is_complex< complex< T >>'.

std::math::detail::
is_complex< complex
< T >>
