

`std::false_type`

```
classDiagram
    class std_false_type["std::false_type"]
    class std_math_concepts_has_index_paren_oper_two["std::math::concepts::has_index_paren_oper_two< T, class >"]
    std_math_concepts_has_index_paren_oper_two --|> std_false_type
```

The diagram consists of two class boxes. The top box, representing `std::false_type`, is white with a black border and is divided into three horizontal sections. The bottom section is empty. The bottom box, representing `std::math::concepts::has_index_paren_oper_two< T, class >`, is gray with a black border and is also divided into three horizontal sections. The top section contains the class name, while the two bottom sections are empty. A blue arrow with a hollow triangular head points from the top edge of the bottom box to the bottom edge of the top box, indicating an inheritance relationship.

`std::math::concepts
::has_index_paren_oper
_two< T, class >`
