

std::true_type

```
classDiagram
    class A["std::math::detail::is_unsequenced<execution::unsequenced_policy>"]
    class B["std::true_type"]
    A --|> B
```

The diagram consists of two rectangular boxes. The top box is white with a thin black border and is divided into three horizontal sections. The top section contains the text 'std::true_type', while the two bottom sections are empty. The bottom box is gray with a thin black border and is also divided into three horizontal sections. The top section contains the text 'std::math::detail::is_unsequenced<execution::unsequenced_policy >', while the two bottom sections are empty. A blue arrow points from the top edge of the bottom box to the bottom edge of the top box, indicating an inheritance relationship.

std::math::detail::
is_unsequenced< execution
::unsequenced_policy >
