

std::false_type

```
classDiagram
    class A["std::math::detail::is_extents<T>"]
    class B["std::false_type"]
    A --|> B
```

The diagram consists of two class boxes. The top box, representing `std::false_type`, is white with a light gray border and is divided into three horizontal sections. The bottom box, representing `std::math::detail::is_extents<T>`, is gray with a black border and is also divided into three horizontal sections. A blue arrow with an open triangular head points from the top section of the bottom box to the bottom section of the top box, indicating an inheritance relationship.

std::math::detail::
is_extents< T >
