

```
std::conditional_t  
< tensor_data_v< T >  
  &&has_static_extents  
  _v< T >, ::std::true_type,  
  ::std::false_type >
```

The diagram illustrates an inheritance relationship. A light gray box at the top contains the definition of `std::conditional_t`. A darker gray box at the bottom contains the definition of `std::math::concepts::fixed_size_tensor_data`. A blue arrow points from the top of the bottom box to the bottom of the top box, indicating that `std::math::concepts::fixed_size_tensor_data` inherits from `std::conditional_t`.

```
std::math::concepts  
::fixed_size_tensor  
_data< T >
```
