

std::false_type

```
classDiagram
    class std_false_type["std::false_type"]
    class std_math_concepts_has_capatible_tuple_size["std::math::concepts::has_capatible_tuple_size< T, class >"]
    std_math_concepts_has_capatible_tuple_size --|> std_false_type
```

The diagram consists of two class boxes. The top box, representing `std::false_type`, is white with a black border and is divided into three horizontal sections. The bottom box, representing `std::math::concepts::has_capatible_tuple_size< T, class >`, is gray with a black border and is also divided into three horizontal sections. A blue arrow with an open triangular head points from the top section of the gray box to the bottom section of the white box, indicating an inheritance relationship.
