

false_type

```
graph BT; A["std::math::detail::  
extents_is_static< T >"] --> B["false_type"]
```

The diagram illustrates an inheritance relationship. At the bottom is a gray box representing the base class `std::math::detail::extents_is_static< T >`. A blue arrow points from the top of this box to the bottom of a white box above it, which represents the derived class `false_type`. The white box has three horizontal sections, with the top section containing the text `false_type`.

std::math::detail::
extents_is_static< T >
