

std::false_type

```
classDiagram
    class std_math_concepts["std::math::concepts"] {
        ::has_add_func< T, class >
    }
    class std_false_type["std::false_type"]
    std_math_concepts --|> std_false_type
```

The diagram consists of two rectangular boxes. The top box is white with a black border and is divided into three horizontal sections. The top section contains the text 'std::false_type', while the two bottom sections are empty. The bottom box is gray with a black border and is also divided into three horizontal sections. The top section contains the text 'std::math::concepts' on the first line and '::has_add_func< T, class >' on the second line. The two bottom sections are empty. A blue arrow points from the top edge of the gray box to the bottom edge of the white box, indicating an inheritance relationship.

std::math::concepts
::has_add_func< T, class >
