

std::false\_type

```
classDiagram
    class std_false_type["std::false_type"]
    class std_math_concepts_has_capacity_func["std::math::concepts::has_capacity_func< T, class >"]
    std_math_concepts_has_capacity_func --|> std_false_type
```

The diagram consists of two rectangular boxes. The top box is white with a black border and is divided into three horizontal sections. The top section contains the text 'std::false\_type', while the two bottom sections are empty. The bottom box is gray with a black border and is also divided into three horizontal sections. The top section contains the text 'std::math::concepts::has\_capacity\_func< T, class >', while the two bottom sections are empty. A blue arrow points from the top edge of the gray box to the bottom edge of the white box, indicating an inheritance relationship.

std::math::concepts  
::has\_capacity\_func  
< T, class >
