

std::false_type

```
classDiagram
    class std_false_type["std::false_type"]
    class std_math_detail_is_span["std::math::detail::is_span< T >"]
    std_math_detail_is_span --|> std_false_type
```

The diagram illustrates an inheritance relationship. At the bottom is a gray-shaded class box for `std::math::detail::is_span< T >`, which has three empty compartments below its name. A blue arrow points from the top of this box to the bottom of a white class box at the top. The white box represents `std::false_type` and also has two empty compartments below its name.
